THE SURVEYOR'S PROFESSION

Historical Note

Early history

Egyptian.

The origins of the surveyor's profession are probably as old as civilisation itself. At any rate, there are indications that the professional ancestors of the quantity surveyor practised in early Egyptian times. In Bearsted's *Egypt* there appears an illustration of an obviously important personage who is depicted with a staff of office held horizontally in his right hand, and a long measuring rod, resting vertically upon the ground, in his left. This personage was known as the Chief Measurer of the Royal Works. Another early illustration shows two bricklayers at work, watched by a "taskmaster," who is seated on a brick with his measuring staff of a double cubit in length between his knees. It was the taskmaster's duty to supervise the building labourers and to measure their work as it proceeded. From these illustrations it is probably not rash to conclude that the quantity surveyor played his part in the building of the Pyramids.

Roman.

Of the existence of surveyors in early Roman times there is plenty of evidence. Originally called *finitores*, or markers of boundaries, they accompanied the bands that set out from the parent City-State on the Tiber to colonise those parts of conquered territories which by Roman custom were reserved to the State as public lands. Their duties were to apportion between the colonists such parts of the land as were not allotted to the gods for the building of temples, or retained by the colony as a whole to provide for the expenses of administration. Even in those times, a knowledge of the difference between good land and bad seems to have been a necessary qualification for the surveyor; for it is said that upon his Roman forefather devolved the responsibility of choosing only good ploughland and woodland for division between the colonists.

The measurement of land, or geometry in its original sense, was used as a practical art by the Romans from earliest times. It was applied especially to the laying out of military camps, and to the orientation of temples. A simple levelling contrivance known as the *groma* was commonly used by the military surveyors (*antemensores*) for siting and laying out the fortified camp which was invariably set up by the Roman troops after the day's march.

Agrimensores.

In later Roman times the civilian surveyors—*agrimensores*, or field-measurers, as they were then called—formed a distinct profession and a recognised official class. They obtained instruction in practical geometry from recognised teachers—probably Greeks—and no doubt kept their technical knowledge up to date by studying the works of Frontinus, Epaphroditus, Vitruvius Rufus and the other writers on land surveying (*gromatici*). In these later times the practice of the *agrimensores* extended to the determination of boundaries between private estates and the settlement of disputes in that connection; and then, as now, they were either instructed by lawyers or called in by the owners themselves.

The Surveyor—in the Middle Ages

In the Middle Ages, and for a considerable time afterwards, the term "surveyor" was commonly restricted to those who measured and prepared plans and maps (including road maps and itineraries) of the surface of the earth. There is evidence, however, that even then the technique of the profession extended to estate management and the valuation of land. In the Prologue to his *Surveyinge* (1523) Fitzherbert said: "It is necessary that every great estate should have a Surveyour that can extende, but, and bounde, and value them." And in 1583 Stubbes wrote: "When a gentleman . . . hath a farm . . . to let he causeth a Surveior to make strict inquirie what may be made of it."

In the Eighteenth Century.

But in the eighteenth century, and possibly because the greatest architect of all time bore the official appellation of Surveyor-General to His Majesty, we find the term constantly used as synonymous with architect. It is noteworthy that even to-day the architect in charge of Wren's greatest monument is known as the Surveyor to St. Paul's Cathedral.

Christopher Wren was, indeed, the surveyor *par excellence*. Combining, as he did, an expert knowledge of mathematics, astronomy and town planning (there must be few modern City workers who are not inconvenienced by the rejection of Wren's proposals for the redevelopment of London after the Great Fire) with his better-known qualities as a designer of buildings, he may fairly be claimed, both in fact and in name, as the first modern surveyor and as the pioneer who pointed the way towards the final development of the profession which he followed.

Surveyors' Club, 1794.

During the last decade of the eighteenth century the first association of surveyors was formed. The Surveyors' Club, with its motto of "Grex Amicorum," was founded in 1794, and consisted at first of sixteen and later of twenty members, who for the most part were the surveyors and architects to the great City Companies of London. The Club still flourishes, and still confines its membership to those who practise as surveyors in the eighteenth-century sense of that term.

Development of the Profession.

The next sixty years saw the beginning and the development of the surveyor's profession as we know it to-day. The land enclosures, the Tithe Commutation Acts, and the renaissance of agriculture, coinciding, as they did, with the approach of the industrial revolution, the coming of the railways and the country-wide development which was necessary to provide for the speedily mounting population of these islands, combined to bring about far-reaching changes in the ownership and occupation of land throughout the country. The introduction of what was then an entirely new principle, the power to acquire land by compulsion for public improvements and essential public services, gave rise to complex and unfamiliar problems which called for special technical advice, and in many cases for adjudication by technical arbitrators. The persons who met that need were men who were skilled not only in the measurement, but also in the management and development of land, and in the appraisal of its values; men, that is, who were described in the various land acquisition Acts of that time as "able, practical surveyors."

Quantity Surveying.

The same era, or perhaps a little later, saw the birth of quantity surveying as a separate and recognised profession. Contractors invited to tender for building works needed, for the purpose of arriving at their estimates, detailed information as to the amounts of labour and materials required. That information was, and is still, obtained by measuring the work as shown on the architect's drawings or described in his specification, and by embodying the result in what came to be known as a "bill of quantities." The quantity surveyor, in addition to preparing the bill of quantities, was soon called upon to exercise various responsible functions of a quasi-judicial nature in connection with the administration of a building contract, and he now enjoys a recognised standing among the professions.

Definition of the Surveying Profession.

Space does not permit of a detailed description of the many and varied duties which the surveyor is able to perform. The profession is defined in the Royal Charter of The Chartered Surveyors' Institution as "The art of determining the value of all descriptions of landed, mineral and house property, and of the various interests therein; the practice of managing and developing estates; and the science of admeasuring and delineating the physical features of the earth, and of measuring and estimating artificers' work."

Modern Surveying Practice.

The practice of the modern surveyor is divided, roughly, into five branches, namely, land agency, urban agency, quantity surveying, building surveying, and mining surveying.

Commenting upon the diversity of the surveyor's profession, His Royal Highness the Duke of York, when attending the Diamond Jubilee Banquet of The Chartered Surveyors' Institution in 1928, said: "The surveyor touches the ordinary life of the public at innumerable points. Upon those who are concerned with the management of the great country estates, we rely to a large extent for the production of our food and timber. Our housing, our trade and commerce, depend in many respects upon the advice of the surveyor trained in the difficult art of valuation; in town planning and in the development of land for building, in matters of sanitation, taxation, rating, and the management of mineral property, the surveyor is brought into contact with our daily lives. He is, in fact, with us almost from our cradles to our graves. Nor must I fail to mention the building surveyor and the quantity surveyor, the former the physician of bricks and mortar, the latter, as it were, the chemist who analyses in minutest detail the component parts of the structure that is to arise."

Origins of the Chartered Surveyors' Institution.

By the middle 'sixties of the last century three professional clubs were in existence. In addition to the Surveyors' Club, to which reference has already been made, the Land Surveyors' Club and the Surveyors' Association had come into being in 1834 and 1864 respectively. Membership of these two clubs, though it consisted largely of surveyors concerned in the management of country estates and in general practice, is not now restricted to any particular branch of the profession. These three associations of professional men may, perhaps, be looked upon as the direct ancestors of The Institution.

The need at that time for a distinctly professional society of surveyors was being more and more felt, and both the opportunity and the materials for its foundation were almost ready to hand. Following upon the far-reaching developments of the mid-Victorian era, Parliament was full to overflowing with Private Bills for public improvements of all kinds, and Westminster was the frequent meeting-place of surveyors who came thither, either in support or opposition, from all parts of the country.

First Meeting and Annual Dinner.

In March, 1868, a general meeting of surveyors was held in London, and decided to form a professional association to be called "The Institution of Surveyors." The requisite preliminaries having been completed, the new body came officially into being three months later, and its members celebrated the occasion by holding an inaugural dinner. This was held in the Cannon Street Hotel on 1st July, 1868, and was attended by a hundred persons.

Royal Charters and Patronage.

In 1881, the Surveyors' Institution, as it was then called, was incorporated by Royal Charter. A Supplementary Charter was granted in 1921, and in the same year His Majesty King George V honoured The Institution by accepting the office of Patron. By permission of the Privy Council, the name "Chartered Surveyors' Institution" was adopted in 1930.

THE CHARTERED SURVEYORS' INSTITUTION

Under the terms of its Royal Charters, the Institution is established :—

1. To secure the advancement and facilitate the acquisition of that knowledge which constitutes the profession of a Surveyor, viz.—the art of determining the value of all descriptions of landed, mineral and house property, and of the various interests therein; the practice of managing and developing estates; and the science of admeasuring and delineating the physical features of the earth, and of measuring and estimating artificers' work.
2. To promote the general interests of the profession, and to maintain and extend its usefulness for the public advantage.

Entrance examinations to qualify for membership were started in 1881, and became compulsory in 1891. The Institution was, therefore, the first professional society, other than those representing law and medicine, to initiate severe examination tests as the qualification for membership.

PRIVILEGES OF MEMBERSHIP.

Fellows and Professional Associates are permitted to place the initials F.S.I. and P.A.S.I. respectively after their names, and to use the designation "Chartered Surveyor," subject to the provisions of the By-Laws. Membership of the Institution, as indicated by the use of these letters and designation, is laid down as an essential qualification for many official and other appointments. Its value is also becoming increasingly recognised in connection with work for trustees, mortgage valuations, arbitrations, evidence before the Courts, etc.

Members, both corporate and non-corporate, have the right to attend the Ordinary General Meetings, meetings of their County Branch, and, if under 33 years of age, the Junior Meetings, and have the privilege of introducing visitors. They receive the Journal, which is issued in twelve monthly parts, and a copy of any other printed publication issued by the Institution. They may avail themselves of the Queries and Replies section of the Journal, and so secure the benefit of the knowledge and experience of fellow members in questions arising in daily practice. They may use the Library and Loan Library and the Appointments Register.

ORGANISATION AND ACTIVITIES.

The affairs of the Institution are under the management of a Council, elected annually by ballot of all corporate members. The Council are advised by the County Branches and a number of Standing and Special Committees appointed to consider the various matters referred to them. Their work includes the examination of Parliamentary Bills affecting the valuation, management, and development of landed property, and the various interests therein; the preparation of memoranda, and the submission of evidence for the use of Government Departments, Royal Commissions and departmental and other Committees in connection with matters upon which the collective knowledge of the profession would prove of assistance; and the rendering of advice to Imperial or Local Authorities when called upon to do so by statute or otherwise.

In addition to their activities in the advancement of the public interest, the Council have continually in view the elevation, ethical as well as intellectual, of the profession which they represent. In addition to the practical help which they have afforded to places of professional instruction, the foundation of scholarships and the furtherance of technical education generally, they have felt it their duty strictly to administer the laws of conduct which all members are required by the By-Laws to observe. The Council have also, through their Professional Practice Committee, used their influence in inspiring a high ideal of professional honour among members.

The Session of the Institution commences annually on the second Monday in November, and continues to the end of May. The Ordinary General Meetings are held monthly during the Session, and in addition two Meetings of members practising in Quantities are arranged. At these Meetings original papers on professional subjects are read and their merits fully and freely discussed. Every member has the privilege of introducing visitors.

THE COUNTY BRANCHES.

The organisation of the Institution includes a system of Metropolitan and County Branches, the object of which is to enable the Council to give the considered views of the profession from all parts of the country on matters of public interest; to afford opportunity for members generally to take an active part in the affairs of the Institution; and to assist the Council in ascertaining their local wants and wishes. The system includes machinery for local representation on, and succession to, the Council and Standing Committees and provides, in addition, opportunities for the discussion of professional questions and social intercourse at centres easily accessible to members in country districts. The affairs of each Metropolitan and County Branch are managed by an Executive Committee elected annually.

THE JUNIOR ORGANISATION.

The Junior Organisation was established for the benefit of the younger members of the Institution, to bring them into closer touch with the Council, and, by fostering among them an interest in professional affairs, to prepare them for higher office in the future. The work of the Junior Organisation is administered by a representative Central Executive Committee which is responsible to the Council for their affairs as a whole. Junior branches in the County Branch districts have been established in seventeen County Branch areas.

SCHOLARSHIPS AND PRIZES.

The Institution offers each year a scholarship of £100 per annum, tenable at Cambridge University for three years, in a course of study selected by the successful applicant out of several prescribed by the Council, and three one-year courses of £125, also tenable at Cambridge unless the selected candidate has applied to use his emoluments for the purpose of travel. The holder of a one-year course is required to state the direction in which he wishes to study, and to undergo such courses of lectures and instruction as may be prescribed, and to carry out an original piece of work under his supervisor's guidance. Detailed particulars of the conditions may be obtained on application to the Secretary.

A number of valuable prizes are offered in connection with the Institution Examinations.

MEMBERSHIP.

The total membership of the Institution is over 8,000, and consists of four classes, viz.: HONORARY MEMBERS, FELLOWS, PROFESSIONAL ASSOCIATES, AND ASSOCIATES. There are also classes of PROBATIONERS and STUDENTS attached to, but not corporate members of, the Institution.

STUDENTS.—In order to qualify for admission to the Class of Students, candidates must be between the ages of 18 and 21, must have passed either the Preliminary Examination of the Institution or one of the specified Examinations accepted in lieu thereof, and must be either (1) pupils or technical assistants in the offices of members of the Institution or other persons substantially engaged in one or other of the branches of the profession as defined above; or (2) studying with a view to entering the profession at such places of professional instruction as the Council may approve.

Candidates under the age of 21 are advised to become Students; for, in addition to the use of the Library and Loan Library, they secure the Journal and are entitled to attend meetings.

Students remain attached to their class until the end of the calendar year in which they attain the age of 21, and may then be enrolled in the class of Probationers.

PROBATIONERS are persons whose period of Studentship has expired or who have passed the Intermediate Examination. They may continue as Probationers until the end of the calendar year during which they shall have been for five years enrolled in that class, or until the end of the third calendar year after that in which they passed the Intermediate Examination, whichever period first terminates.

All candidates for the Intermediate Examination are required to give an undertaking that, if successful in passing, they will forthwith become Probationers and so remain for the full term allowed by the By-Laws

Probationers are entitled to use the Library and Loan Library to attend meetings and to receive the publications.

PROFESSIONAL ASSOCIATES.—Candidates desirous of election to the class of Professional Associates must be not less than 21 years of age, and must have passed the Preliminary Examination (or an examination accepted in lieu thereof) and the Intermediate and Final Examinations. Candidates holding a University degree in subjects approved by the Council as appertaining to the surveying profession may take a single examination in place of the Intermediate and Final. After passing the examinations, candidates are eligible for election to the class of Professional Associates, provided that they are no longer *in statu pupillari* and are actually engaged in professional work as Surveyors.

Holders of the B.A. and B.Sc. degrees in Estate Management, granted respectively by the Universities of Cambridge and London, may be elected as Professional Associates without examination on satisfying the Council that they are engaged in professional work and have received proper practical training in the profession.

FELLOWS.—Candidates must be not less than 30 years of age, must have passed either (1) the Preliminary or an exempting examination and the Intermediate and Final Examinations, or (2) the Direct Fellowship Examination ; and must have held for five years, and be holding, a position of complete responsibility equivalent to that of a principal in an established business.

There are special arrangements for the election of Colonial Fellows.

ASSOCIATES must be persons over 21 years of age, not Surveyors by profession, whose pursuits are such as to qualify them to co-operate with Surveyors in the advancement of professional knowledge.

HONORARY MEMBERS must be persons who, either by reason of their position or experience, or their eminence in science, may be enabled to render assistance in promoting the objects of the Institution ; but are not engaged in practice as Surveyors in Great Britain or Ireland. They have the privilege of being present and taking part in all Ordinary General Meetings, and of access to the Library, but no right of voting, discussing or otherwise interfering in the affairs of the Institution ; nor are they called upon to contribute to its funds.

ELECTION TO MEMBERSHIP, other than Honorary Membership, is by ballot of all the corporate members of the Institution. All Fellows, Professional Associates and Associates are required, within twelve months of their election, to attend an Ordinary General Meeting, or, in the case of members residing at a distance from London, a meeting of their County Branch, for the purpose of formal introduction, and to sign the Register. They are also required, within the same period, to deliver to the Council an original paper on a subject connected with the profession, or to make a donation to the Library Fund.

EXAMINATIONS.

THE PRELIMINARY AND SPECIAL EXAMINATIONS.—Any candidate intending to follow the profession of Surveyor will be accepted on application, but acceptance for the Preliminary Examination does not imply that a candidate, if successful in passing, will necessarily be regarded as eligible for enrolment as a Student, or for admission to the Intermediate and Final Examinations. There are no age limits, but candidates over the age of 25 are permitted to sit for a special Examination, instead of the Preliminary, to test their general knowledge and education. The entrance fee for the examination is £1 11*s.* 6*d.*

THE INTERMEDIATE EXAMINATION.—A Candidate, unless studying at a recognised place of instruction, must be a pupil or technical assistant* in the office of a member of the Institution or other person substantially engaged in the profession of Surveyor as defined above. The entrance fee for the Examination is £5 5*s.* 0*d.*

A Candidate taking Part I only of the Intermediate Examination may do so before reaching the age of 19, provided he has passed the Preliminary (or exempting) examination.

A Candidate taking Part II of the examination, either with or without Part I, must not be less than 19 years of age at the date of the examination. No exception to this rule will be made.

THE FINAL EXAMINATION is open to candidates who have passed the Intermediate Examination; the entrance fee is £5 5*s.* 0*d.*

THE DIRECT FELLOWSHIP EXAMINATION.—Candidates for this Examination must be more than 30 years of age, and their position must be such as would make them eligible for direct election as Fellows on passing the Examination. The entrance fee is £5 5*s.* 0*d.*

---

* *Articles, although much to be recommended as a method of training for the profession, are not an essential condition of admission to the Examinations.*

The Preliminary and Special Examinations are held annually in January, and the Intermediate, Final and Direct Fellowship Examinations in March. Applications to sit for any one of the Examinations must be on the prescribed forms and must be submitted, together with the examination fees, during the previous August.

The Intermediate, Final, and Direct Fellowship Examinations are divided into four Sub-Divisions, to cover the four main branches into which the profession may roughly be divided, viz. :—I., Chiefly Land Agency ; II., Chiefly Valuation ; III., Chiefly Building or Quantities ; and IV., Chiefly Mining. Candidates may elect to be examined in any one of these sub-divisions, but those proceeding to the Final Examination after passing the Intermediate must do so in the same sub-division.

THE SPECIAL SINGLE EXAMINATION for holders of University degrees in a course of study approved by the Council as bearing upon the profession, is held concurrently with the other professional examinations, and combines the subjects required to be taken in both the Intermediate and Final. Entance fee £5 5*s*.

Copies of the rules governing the examinations and giving full particulars thereof, may be obtained from the Secretary on application. The detailed Syllabus and List of Text-Books (which relates to the professional examinations only) can be obtained at a charge of 1*s*., and past examination papers at 2*s*. for each annual set.

THE LIBRARY AND COLLECTIONS.

The Institution Library contains approximately 12,000 volumes, and includes a topographical section comprising the great County Histories, all the principal local histories, and a London collection ; a series of works on British Agriculture, both ancient and modern, and the allied subjects of Forestry, Geology, Botany, Agricultural Chemistry and Vegetable Physiology ; a complete series of professional text-books, including the latest works ; works of general science ; the Public General Statutes from the earliest times ; Law Reports and Law Text-Books ; Parliamentary Papers and Reports ; the Transactions of kindred societies and general works of reference. It also contains a complete set of the Regional Planning Schemes ; all the Town Planning Schemes which so far have been approved by the Minister ; a number of valuable single works and rare editions of special interest to the book-lover, as well as a collection of old maps, charts and plans.

The Loan Library is independent of the General Reference Library, and contains some 1,600 volumes, including all the principal professional text-books, which may be borrowed by members according to the prescribed rules.

LOAN LIBRARY REGULATIONS.

The Loan Library is open for the issue and return of Books during the same hours as those appointed for the Reference Library.

The use of the Loan Library is confined to Fellows, Professional Associates, Associates, Probationers, and Students of The Institution.

Not more than one volume at a time is issued to any one borrower, except by special permission, and no volume may be retained longer than fourteen days unless a written renewal has been obtained from the Secretary. Infraction of this Rule will render the Member liable to the forfeiture of his right to the use of the Loan Library.

Application for works must be made personally or by letter. In the former case the borrower will be required to sign a voucher for each book he takes out, and will be responsible for the work so long as the voucher remains uncancelled.

In the case, however, of a Member of the Institution borrowing through the post, his letter of request must be countersigned by the Secretary on the day when the volume is dispatched, and the letter so countersigned shall be regarded as the Member's voucher. Volumes will be dispatched at the cost of the Institution, but are to be returned at the cost of the borrowers. On the return of a Book the Secretary will at once send the Member a receipt.

Applications for renewal must be made personally or by post card in sufficient time to allow of the book being punctually returned if the time cannot be extended ; if renewed, a written renewal from the Secretary will be sent, which must be produced when the book is returned.

A borrower is liable to be called upon to replace at his own expense any work lost, marked or injured while in his possession, or to pay a fine.

The Forestry Collection contains a series of home-grown timber exhibits in planks and sections ; preserved specimens of the foliage, flowers and fruit of the more common British trees and of timber insects, injurious and otherwise ; and a collection of saws, tools and other implements used in forestry. Various causes of damage to timber and the commercial uses to which British woods may be put, are also illustrated.

The Geological Museum includes specimens of the fossils found in British geological formations and a collection of stones used in building.

THE APPOINTMENTS' REGISTER.

The growing use which senior members are making of the Appointments' Register is a source of much satisfaction to the Council. The Register, while it is kept chiefly for the purpose of helping junior members to secure employment or to improve their positions, is also intended to be of service to those who have appointments to fill, and its value on both counts must largely depend upon the use which is made of it.

Members can also be of great assistance by bringing the Register to the notice of landowners and others who require agents or professional assistants.

The Appointments' Register is kept on a special system which enables inquiries to be dealt with promptly and at short notice, whatever may be the special kind of training and experience required. Selection is assisted, however, if information can also be given as to age and salary, and whether the appointment is likely to be permanent or temporary. Inquiries should be addressed to the Secretary, 12, Great George Street, S.W.1.

ARTICLES OF PUPILAGE.

It has been represented, in view of the changes in the conditions of admission to membership, that young men entering the profession will find it to their advantage to have their Articles of Pupilage, or any equivalent agreement (current, or not more than three years expired), registered in the books of The Institution.

The Council have therefore made arrangements for such registration free of charge.

Articles of Pupilage either for a premium in a lump sum or spread over three years have been prepared by the Council, and can be obtained from The Institution on application to the Secretary.

THE CHARTERED SURVEYORS' BENEVOLENT FUND (INCORPORATED)

The Chartered Surveyors' Benevolent Fund was founded, largely through the instrumentality of the late Mr. Daniel Watney, in 1899, and was incorporated in 1901. The resources are maintained by voluntary subscriptions raised almost wholly from within the membership of the Institution, and are available for the assistance of members and their dependents who have fallen on evil days.

The invested capital of the Fund is more than £30,000, and over £40,000 has been expended in relief, one valuable form of which is the provision of education for the orphan children of members. Assistance is also given to those in temporary need through ill-health, and eighteen annuities are provided for those who by reason of age are unable to support themselves.

RULES OF PROFESSIONAL CONDUCT FOR OBSERVANCE BY CHARTERED SURVEYORS

I.—RELATIONSHIP WITH OTHER PROFESSIONS AND OCCUPATIONS.

(*a*) No member shall engage in or be connected with any occupation or business which in the opinion of the Council is inconsistent with membership of the Institution.

(*b*) No member shall directly or indirectly allow or agree to allow any person, other than a member of his own profession, to participate in his remuneration.

(*c*) No member shall engage in work recognised as being properly that of a solicitor.

II.—MEMBERS' RESPONSIBILITIES.

(*a*) In order that members shall accept full personal liability for advice given to clients, they will not be permitted to convert their firms into limited liability companies unless special circumstances, approved by the Council, exist.

(*b*) Members who are principals will be held responsible to the Council for the acts of their partners and staffs so far as they relate to matters coming within the scope of their practice.

III.—SALES AND LETTINGS.

(*a*) No member shall, either directly or indirectly, in writing or verbally, seek instructions for business which he knows, or with ordinary care could have ascertained, is in the hands of another agent ; nor, in other cases, without a definite intimation that if another agent has already been retained, instructions can only be accepted from, and as sub-agent to, that agent.

A member who seeks instructions to deal with a property on which another agent's board or notice is exhibited will be deemed to have disregarded knowingly this injunction.

Canvassing by personal call or by telephone by a member or one of his staff is prohibited.

(*b*) No member shall offer any financial inducement to secure instructions, nor shall a member charge, for effecting a sale, purchase, letting or taking, an amount of commission which in the opinion of the Council would be unfair to other members.

IV.—SURVEYS, VALUATIONS AND WORK OTHER THAN SALES AND LETTINGS.

(*a*) No member shall in any circumstances solicit instructions in any manner whatsoever. This injunction does not apply in the case of a client for whom a member regularly acts.

(*b*) No member shall offer to accept instructions on the basis that no charge will be made unless a successful result is attained, nor shall a member undertake work for charges which in the opinion of the Council would be unfair to other members.

V.—ADVERTISEMENTS.

Members shall ensure that advertisements and other public announcements are not such as would bring the Institution into disrepute.

VI.—GENERALLY.

No member shall conduct himself in such a manner as to prejudice his professional status or the reputation of the Institution.

NOTE.—*These rules supersede all editions previously issued and should be read in conjunction with the revised By-Law* 24, *issued to all members of the Institution with the May* 1934 *issue of the Journal.*

(*a*) If the contract or order exceeds £2,000 the percentage is to be 6 per cent.

(*b*) If the contract or order does not exceed £2,000 the percentage is to be 10 per cent. in the case of works costing £100 graduated to 6 per cent. in the case of works costing £2,000 as the special character of such works may render appropriate.

II. FEES ON ALTERATIONS AND ADDITIONS TO EXISTING BUILDINGS.

In the case of alteration of and additions to existing buildings, a higher percentage may be charged not exceeding twice the amount due under (1) above for new works of the same cost.

XIV.—PREPARING BILLS OF QUANTITIES AND VALUING WORK EXECUTED.

The Scale of Charges for the preparation of Bills of Quantities set out in 1. (*a*) below is an over-all Scale, based upon the inclusion of all provisional amounts which do not normally call for measurement.

The measurement and valuation of variations and the preparation of statements of account at the conclusion of the works are separate services for which the scale set out in 1. (*b*) provides.

I. LUMP SUM CONTRACTS: ARCHITECTURAL WORK.

When acting in the capacity of a quantity surveyor in connection with:—

(*a*) Taking out and preparing Bills of Quantities:—

(i) BASIC SCALE.

2½ per cent. upon the estimated cost of the work up to £10,000.

2 per cent. upon the balance above £10,000.

(ii) WORKS OF ALTERATION.

The charges in sub-paragraph (i) shall be increased by ½ per cent. in respect of works of alteration.

(iii) GENERALLY.

Fees are to be calculated upon the basis of the accepted tender for the whole of the work. In the event of no tender being accepted, fees are to be calculated upon the basis of the lowest original *bona fide* tender received. In the event of no tender being received, the fees are to be calculated upon a reasonable valuation of the work, based upon the original Bill of Quantities.

In calculating the amount on which fees are payable, the total of the Credit Bill (if any) and the total of any alternative Bills are to be added, but any Omission Bill forming part of an Alternative Bill is not to be included unless actual measurement is necessary to arrive at the Omission.

The cost of lithographing or printing the Bills of Quantities is not included in the above Scale, but is to be charged in addition at the net amount payable to the lithographer or printer.

(*b*) Measuring and making up accounts of variations upon Contracts, including pricing and agreeing totals with contractors.

2½ per cent. upon the amount of the additions, and

1½ per cent. upon the amount of the omissions, less the total of Provisional sums or work omitted as a whole.

No charge shall be made for the adjustment of provisional lump sums in cases where the exercise of professional skill is not involved.

(*c*) Taking out and preparing Bills of Quantities, or measuring for and making up accounts of decoration contracts:—

2 per cent. above the rates in the foregoing paragraphs.

½ per cent. upon the estimated cost, or, alternatively, a charge to be based upon the time involved.

½ per cent. upon the amount of each valuation less the amount of any previous valuation or valuations upon which fees shall have been paid, or alternatively, a charge to be based upon the time involved.

(*g*) Taking particulars on site and writing specifications for works of alteration or repair, including supervision if required:—

7½ per cent. upon the amount expended, or alternatively, a charge to be based upon the time involved.

NOTE.—In cases where any of the materials used in construction are supplied by the building owner, the percentage charge to be made upon the estimated or actual value thereof.

Preparing, pricing and agreeing schedules of prices :—

A charge to be based upon the time involved.

The above percentage applies only to the complete measurement and valuation of the buildings or building operations when undertaken as a whole and included in one account. When the measurement proceeds by stages involving the preparation of periodical bills, then the percentage charge shall be increased by ½ per cent.

Note.—In cases where any of the materials used in construction are supplied by the building owner, the percentage charge to be made upon the estimated or actual value thereof.

III. PRIME COST CONTRACTS.

Checking prime costs in "Cost plus Profit" Contracts and making up final accounts of works executed :—

1¼ per cent. except on work necessitating measurement which is to be paid for at the rates previously laid down.

IV. CIVIL ENGINEERING WORK.

Generally speaking, the charges for services in relation to work which can be classed as Civil Engineering work, are, as regards the percentages, to be half those for Architectural work, but the same as the latter in respect of charges based upon time.

V. LITIGATION AND ARBITRATION.

For qualifying to give evidence; settling proofs, conferences with Solicitors and Counsel; attendance in the Courts or before Arbitrators, or other tribunals; and for other services in connection with litigation and arbitration the charges are to be based upon the time involved, but are in no case to be less than a minimum of £5 5s. per day of not exceeding six hours.

EXTRACTS FROM THE PRINCIPLES WHICH MUST GOVERN CHARTERED QUANTITY SURVEYORS IN INTERPRETING SCALE 14 OF THE SCHEDULE OF PROFESSIONAL CHARGES.

The Chartered Quantity Surveyor in practice is governed by established customs accepted and observed by the Surveying profession, and more particularly by the Charter and By-laws of the Institution which render him liable in the case of unprofessional conduct to reprimand, suspension, or expulsion at the discretion of the Council.

A Quantity Surveyor is remunerated solely by his professional fees, and is debarred from any other source of remuneration in connection with the works and duties entrusted to him. A Quantity Surveyor must not accept any work which involves the giving or receiving of any discounts, gifts, or commissions whatsoever.

Quantity Surveyors may not compete with another on the basis of fees, and Chartered Quantity Surveyors must take reasonable precautions not to contravene the principle, e.g. by an intimation to the prospective client that if other surveyors are being asked to quote in competition, the offer of services is withdrawn.
